DAILY TRIBUNE.

Monday Morning............Oct. 19 1857.

Cleveland Railroad Convention.

We give the proceedings of the first day of the General Railroad Convention. The second and third days will appear to-morrow. We also publish the argument entered into in regard to transporting freight and live stock.

On the matter of Free Passes the Convention acted sensibly and liberally towards the newspapers, but cut off a multitude of "dead heads" who were neither an honor nor profit to the Roads, and had no manner of claims upon them for free rides.

[illegible] in Cincinnati.

Where, Oh! where are those "immortal and glorious [illegible] K. N.'s which would adhere faithfully to [illegible] through all adversity?" Echo answers, "Gone with the 4,500 bolting Democracy who pledged themselves to the 'Union Ticket.'"—It is said that the K. N.'s were not "sold" by the Democracy, but were bought.—Cin. Com. 16th.

Last fall the Know Nothings polled 4,530 votes in Cincinnati for Fillmore; this fall only 1847 for their candidate for Governor. The missing twenty-five hundred "mixed in" with the Democracy.

THE OCTOBER ELECTIONS.

Ohio.

All doubt in regard to the result in Ohio is at an end. All the counties have been heard from, and Governor CHASE is re-elected by over one thousand—the official count may make it two thousand. The Chicago Times received a private despatch on Saturday evening, from Cleveland, saying that CHASE was elected by 967 majority. We received a despatch Saturday P. M., making his majority 1,300. We have no doubt but the residue of the Republican State ticket is elected—except BLINKENSDERFER, for Canal Commissioner.

Iowa.

The following are all the counties we have heard from. We compare the majorities with the election of last Spring, on the candidate for Register, when the Democrats elected by 505 in the State:

[illegible]

Victory in Minnesota.

We have at last received the Minnesota papers published after the election. The Republican triumph is complete. The whole ticket from top to bottom is elected.

We have the following definite returns:

ST. PAUL gave the Democratic ticket 800 for Governor, and 1,000 on the remainder of the State ticket. The vote was very heavy, and some hard fighting occurred, as the Republicans tried to prevent a flood of illegal votes from going into the ballot box, which they succeeded in doing to some extent. The Democratic majority last spring was over 1,000.

MINNEAPOLIS went Republican by 209 majority, being a large Republican gain.

[illegible] COUNTY is redeemed. It has gone Republican by [illegible] majority, and elected one Senator and two Representatives; being a gain [illegible]

[illegible] COUNTY.—Ramsey voted; Sibley 305, [illegible]. For Congress and State ticket the Republicans are ahead. On the County ticket the Republicans carried a part. Sibley has a small majority in the County. Last spring the County was strongly pro-slavery. It adjoins St. Paul.

[illegible] COUNTY.—This ever reliable Republican County comes in to us with about 200 majority for the right ticket. She elects two Senators and three Representatives, Republicans.

[illegible]—Only two precincts heard from, both showing Republican gains.

[illegible] COUNTY.—We have received returns from [illegible], which give Ramsey 174, Sibley [illegible]. The rest of the State and Legislative ticket varies but slightly from the above.

It is conceded that the Democrats have carried the county by a large majority.

CARVER COUNTY.—It is reported that Carver precinct has given Ramsey 100 majority, and that Chan precinct has given Sibley 40 majority.

[illegible] COUNTY.—News had reached Stillwater on the [illegible], that Chicago Lake precinct, in Chisago County, has given Ramsey 100 majority. No returns from the county.

WASHINGTON COUNTY.—This hitherto stronghold of the Sham Democracy has been redeemed. The Democrats are perfectly aghast. The whole Legislative and County ticket is elected by decisive majorities—two Senators and three Representatives, which the Democrats were sure of. The vote for Governor was, Ramsey, Rep. 1035; Sibley, Dem. 881; Rep. maj. 154. That will do. The county seat, Stillwater, gives the Republicans 81 majority.

WABASHAW COUNTY.—An extra from the Lake City Tribune, Pro-Slavery, concedes that the county has gone Republican by [illegible] majority! At Lake City the vote stood, Ramsey 158, Sibley 62; Rep. maj. 96. The St. Paul Times claims the Republican majority in the County.

The town of Winona gave a Democratic majority—County Republican by 150 to 200, which is a gain.

CHISAGO COUNTY.—Whole Republican ticket elected by 250 maj.

RAMSEY is claimed by the Democrats by 150.

The above are all the returns we have received. A dozen good Republican counties we have not heard from. The Republicans have carried all the close counties, and undoubtedly have a large majority in the Legislature.

Further Election Dispatch from Kansas.

JEFFERSON CITY, Mo., Oct. 16.

Kansas advices to the morning of Tuesday, the 13th received.

Gov. Walker and Capt. Pleasonton, of the army and Gen. Pomeroy and Dr. Webb, general agent Secretary of the Aid Society, passed through here yesterday, en route to the East.

The Democrats of Kansas still claim the Legislature by a small majority, and the Republicans claim it by a two-third majority. Several [illegible]. It is said that the large Democratic majority in Johnson county is a hoax, and that the district went free State, which secures a free State Legislature.

Gov. Walker defends the voting of the soldiers at Kickapoo, and says that they are not [illegible] as soldiers, but as citizens, they [illegible].

It is the opinion of many Democrats that a majority of Democrats will be returned to the Legislature in spite of the unfavorable appearances.

[We presume that the Free State men will be swindled, if the Ruffians can invent any way to procure false returns. But let them beware, as they love their precious lives.—ED.]

Interview between Napoleon and Alexander.

NEW YORK, Oct. 16.

The steamship Vanderbilt, which arrived [illegible] from Southampton, [illegible] intelligence from Europe. The news is not important. Napoleon had returned to France after meeting Alexander at Stuttgart. The imperial interview [illegible] a cold affair. According [illegible] of the London [illegible] to tamper with the [illegible]. The personal pride of [illegible] has been gratified, but this appears the only result of the famous meeting [illegible] he will now insist on an [illegible] with every Sovereign in Europe. [illegible] at Stuttgart, the Emperor [illegible] affable, courteous, and [illegible]; he was seen in the [illegible] with as little display as [illegible] the contrary, was reserved [illegible], did not look [illegible] personages, the [illegible] impression on [illegible] financial troubles in the [illegible] attention [illegible]

THE HARDEST OF ALL CHARGES.—We have accused John Wentworth of many crimes and offences against honesty, law, morals, and decency. But it was for the Chicago Tribune to accuse him of the meanest of all mean acts—stealing an editorial of the Tribune's, and passing it off as his own. We confess we did not think that even Wentworth would descend that low.—Times.

When a man steals he takes what he knows to be valuable. No one has ever been charged with filching from the Times, because he who steals its editorials steals trash. The character of its effusions is proof against all larceny or temptation in that direction.

A SPECULATING OFFICIAL.—Uncle Sam, as everybody knows, is a good paymaster. He receives and pays out mint drops only, and all his transactions are cash. The United States Marshal of the Northern District of Illinois, takes advantage of this fact, and in all the disbursements made by him on account of the Government, *he* uses currency, which, when compared with coin, is at a discount of ten to fifteen per cent—he, of course, pocketing the difference. A juror, a day or two since, demanded gold, as was clearly his right, "Yes," says the Marshal, "you can have it, but remember that you will never get on this jury again!" We beg to tell this gentleman that he is transcending his power, and that he is adding official impudence to official malfeasance. His salary and fees are sufficient to satisfy any reasonable ambition, and when he descends to the small business of brow-beating jurors and others into the receipt of depreciated currency for their dues, that he may make a liberal per centage off from the coin, he should be rebuked. We say to all who have business with this shaving Marshal that they are entitled to currency of the United States, and that he must pay it if demanded, his threats and ill manners to the contrary notwithstanding.

Mercantile Failures.

The number of failures reported in last week's *Independent* are *one hundred and sixty seven!*

New York City furnishes the number of *fifty-seven*, without counting the eighteen bank suspensions. There were fifteen failures recorded in Boston. Philadelphia furnishes twenty failures.

The following are reported from the West:

Dean, King & Co., St. Louis, Mo., suspended.
Collins, Kellogg & Kirby & Co., St. Louis, Mo., suspended; ask an extension; have a large surplus; will pay in full with interest.
Renfrew, Pomeroy & Co., St. Louis, Mo., suspended.
W. K. Culver, Banker, Louisville, Ky., suspended and assigned.
A. D. Mansfield, Louisville, Ky., suspended and assigned.
Wm. Lee & Co., Cin., O., suspended.
H. Price & Co., Cin., O., assigned.
The Cuyahoga Steam Furnace Co., Cleveland, Ohio, assigned.
L. Morrison, Cleveland, Ohio, failed.
Wm. Lowenthal & Co., Evansville, Ind., assigned.

Brighter Prospects in New York.

[From the N. Y. Times Money Article, Oct. 16th.]

The State Currency arrangement entered upon by the Associated Banks last evening, and made public this morning, occasioned a brighter feeling in Bank and further large improvement on the Stock Exchange. The order of business at Bank, and the nature of the daily settlements at the Clearing House, under the new state of suspension are now pretty well understood, though several days will be required to arrange the details of the country money department.—All the New York State money, of solvent banks, is at par with City bank notes and bank credits, in every department of business except the United States Custom House, Post Office and Sub-Treasury. And the premium on Gold, to-day, is 1½ to 2 per cent., buyers, and 2½ to 3 per cent., sellers. That is, if you have Gold to sell to the Brokers, they are *buyers* at 1½ a 2 per cent; if you have occasion to buy from them, they are *sellers* at 2½ to 3 per cent. Even these low rates are as yet but next to nominal, for in many instances to-day, as on yesterday, holders found no market at all, at the moment, and carried the gold to bank on general special deposit. The effect of the country currency arrangement is thus far limited to *anticipated* rather than real relief in the discount market, as sufficient time has not elapsed to bring in a supply of country circulation, and the city Banks have but a small amount of their own notes on hand above the ordinary wants of the paying teller to provide for small checks. Nevertheless there is more ease already at Bank for the regular dealers, where discount wants are within moderate sums. Relief does not come to parties negotiating on the street. The classification of paper has been almost wholly demoralized by the heavy failures of last week and on Monday. It is found that many of the so-called No. 1 firms have either succumbed outright or arranged privately for extensions, and the consequence is that mercantile paper has lost favor greatly both with the regular money-lenders as paper-buyers, and the retired men of capital. The leading discount offices to-day decline to make a quotation; and the apprehension is current that a number of the importing and commission firms have yet a rough time before them. The difficulty is in providing for both sides the bill-book, so many of the grocers and jobbers having broke down or applied for assistance. When the obligations are in bank, less uneasiness is felt, as the disposition to renew and accommodate is very general among the Banks, where such assistance will carry the parties through.

STOCKS.

Under the disfavor shown to mercantile bills, and the prospect of reducing to order the current funds in which the banking movement is to be carried on, there is an improved inquiry for State Stocks, Delaware and Hudson shares, New York Central shares and bonds, Galena and Chicago, Rock Island, and a number of other other dividend-paying bonds and stocks. And this feeling in turn creates some speculation on the street in the low-priced Railroads or Fancies. There is also a partial recovery in bank shares; Commerce is sold at 70½, and American Exchange at 79 (a rise of 18 per cent,) though this class of investments, as a general remark, has been shaken by the events and indecision of the past fortnight in the bank conferences. The first improvement to-day was in New York State sixes of 1872-74, and State fives of 1858. The rise in the former is thirteen and a half per cent., and *ten per cent.* in the fives. The market took all the parcels offered quite eagerly, and the last price of the sixes of 1874 was 103½ per cent. against 90 per cent. yesterday morning. The course of the general market is thus indicated:

	Closing Monday.	Business Thursday.	Advance in 3 days.
New York Central	[illegible]	[illegible]	[illegible]
Missouri Sixes	[illegible]	[illegible]	[illegible]
Virginia Sixes	[illegible]	[illegible]	[illegible]
Erie Shares	[illegible]	[illegible]	[illegible]
Illinois Central Bonds	[illegible]	[illegible]	[illegible]
Galena & Chicago	[illegible]	[illegible]	[illegible]
Cleveland & Toledo	[illegible]	[illegible]	[illegible]
Chicago & Rock Island	[illegible]	[illegible]	13¾

The rates for Philadelphia Exchange to-day are 52½a98; Baltimore, 96a96; Boston unsettled; Southern and Western points unsettled, but looking to early improvement. The advices by telegraph from Kentucky to-day is that the banks of that State will be governed by the final course of the New Orleans banks, which must be determined in a day or two. A dispatch from Louisville, dated this morning, says that the feeling is not despondent, but, on the contrary, quite cheerful. Should the New Orleans banks hold on to the specie standard, an effort will probably be made to do the same throughout the Southwest with the old solvent banks.

FROM WASHINGTON.

Special Dispatch to the N. Y. Tribune.

WASHINGTON, Oct. 16.

Secretary Cobb regrets that the redemption of stocks was not sooner put a stop to. The suppression of banks will be recommended in an annual report.

The President attributes the commercial distress, in part, to the last reduction of the tariff.

SECTIONALISM AND THE PANIC.—The attempts that are made by certain journals in this city, as well as at the South, to trace the failure of commercial houses to politics is absurd. The embarrassments in business have been universal, and if it were at all worth while, we could name two Southern and Pro-Slavery merchants to one Anti-Slavery establishment, upon the list of those who have failed. But the task is one suited to the taste of only the most bigoted and reckless party organs, and we leave it for them.

A TRIAL FOR THE ODD CENT.—The Washington *Star* of the 8th says, that some days ago a produce dealer sold a customer a half peck of potatoes for a shilling, and in taking his pay from a quarter dollar, returned twelve cents change. This the customer declined to receive, claiming thirteen cents as his due. A dispute ensued, which ended in the customer getting out a warrant for the odd cent, and the case being tried, he recovered it.

ILLINOIS CENTRAL RAILROAD.—During the week ending October 16th, the Illinois Central Railroad Company sold of their lands 6,601 96-100 acres for $75,316.76.

CITY ITEMS.

LECTURE THIS EVENING.—Dr. Boynton gives his first lecture this evening, at Metropolitan Hall. We can promise a rich entertainment to the public.

CHANGE OF TIME.—The time of trains running on the Pittsburg, Fort Wayne and Chicago Railroad is changed from 7.15 A. M. to 6 A. M., and from 8 P. M. to 8.45 P. M.

CHANGE OF CURRENCY.—The Michigan Central Railroad Company, is reducing the wages of its employees, have resorted to the system of discarding the shillings and sixpences which still cling to and mutilate our currency.

THE SHOOTING AFFAIR.—We learn from Dr. Wardner, that Thomas Collins, who was shot a few evenings since in a fracas on the corner of Canal and Harrison streets, is slowly recovering, and is now out of danger. One of the bullets has been extracted, but the other cannot be found.

NEW JERUSALEM CHURCH.—The Chicago society of the New Jerusalem, whose place of worship was burned in the late fire, have purchased the Methodist Church on Harrison street, between State street and Wabash avenue, where they will worship until further notice.

THE BRAYMAN CASE.—The jury in the Brayman case, in the United States District Court, have been dismissed till Thursday next. The Circuit and District courts will open in the meantime for the disposal of cases in Admiralty, &c., that do not require the intervention of a jury.

CHURCH OF THE HOLY NAME.—The ladies of the congregation of the Church of the Holy Name, in the North Division, will hold a fair in North Market Hall on the evenings of Tuesday, Wednesday, and Thursday next. The object of the fair is to raise funds to aid in the completion of the church.

THE EQUESTRIAN PRIZE.—On last Saturday the prize for the best equestrianess, a valuable riding whip, was won by Miss Hattie Waite, daughter of Frederick Waite, Esq., of this city. A short time since Miss Waite won a saddle, bridle and whip at the Galesburgh Horse Show. Miss W. is an exceedingly graceful and accomplished equestrienne.

CAUGHT AGAIN.—Cole, who is charged with having poisoned his wife near Cleveland, and who recently escaped from some Wisconsin officers at the Southern Michigan depot in this city, has been re-arrested in St. Louis, and passed through this city on Saturday evening in charge of officer Williams, of Chagrin Falls, Ohio.

LARCENY OF MONEY.—On Saturday afternoon Bridget Burke was brought before the Police Court upon a charge of stealing $119 in coin, two gold breast pins and a gold watch and chain from James Newman, of No. 169 Washington street. The accused was a servant in the house. All the property and the money, except $11, was found in her possession. She was committed for trial in default of $500 bail.

SACRED CONCERT.—On next Tuesday evening a sacred concert will be given in St. Paul's (Universalist) Church, the proceeds to be applied toward paying for the new organ. The programme contains selections from the oratorios of Elijah, The Creation, Sampson, etc. The Church choir, assisted by a fine chorus will furnish the vocal music and Mr. Currie will preside at the organ. This will prove one of the most attractive concerts of the season.

PITTSBURG, FORT WAYNE AND CHICAGO ROAD.—The business of the Pittsburg, Fort Wayne and Chicago Railroad company, for the month of September, was as follows, viz.:

Freight	$7[illegible]
Passengers	[illegible]
Mail	[illegible]
Miscellaneous	[illegible]
Total	$[illegible] 27
Earnings for September, 1856, were	[illegible]

FOUR MEN NEARLY SUFFOCATED BY GAS.—On Saturday afternoon, four workmen engaged in introducing gas into the new building on the corner of Lake and LaSalle streets had a narrow escape from suffocation. They were under the sidewalk, and by some carelessness, a large quantity of gas escaped into the vault, and before the men could get into the open air they were overpowered. A gentleman who was fortunately passing at the moment and saw the occurrence gave the alarm and the unfortunate men were rescued. Restoratives were employed, and the men were soon able to go to their homes.

PHILIP JORDAN DISCHARGED FROM CUSTODY.—The examination of Philip Jordan, charged with the murder of Thomas Applebee, which has been progressing for several days before Justice Milliken and Justice D'Wolf, was concluded on Saturday and the accused discharged from custody. A large amount of evidence was heard and the case very thoroughly examined, but no testimony was adduced which would warrant Jordan's being held for trial. All disinterested persons, who heard the testimony, were satisfied that the prisoner is innocent, or, at least that the people failed to make out a case against him.

FIRST PRESBYTERIAN CHURCH.—This evening there is to be a sale of the seats in the new and beautiful edifice, and it is to be hoped that as the trustees have reduced the valuation of the seats below that of almost any other church in this city, and made the terms so very favorable, requiring only ten per cent. down, that many will be induced to purchase that would not otherwise have done so. Too much praise cannot be awarded to this Society, who, besides building their own church, have also contributed twenty thousand dollars to the building of other churches now in process of erection in this city. Under the pastoral charge of Rev. Dr. Curtis, there is probably no religious organization in this city or the West that has done more for the building up of other churches, and the diffusion of religious truth than this.

The church will be open during the day to furnish an opportunity to those who may wish to select seats. The sale to commence this evening at 7 o'clock.

A WHOLE FAMILY POISONED.—On last Saturday morning the family of John L. Beveridge, Esq., a lawyer of this city who resides at Evanston, were poisoned with arsenic and the servant girl is not expected to recover. Mr. Beveridge is absent from home and the family consisted of Mrs. Beveridge, two small children, a servant girl and a son of Mr. J. K. Botsford, of this city, who is attending school at Evanston.

After eating breakfast at the usual hour on Saturday morning, the whole family were taken suddenly ill, and attacked with spasms and severe fits of vomiting. A physician was immediately summoned and he discovered that the family had been poisoned and administered the necessary remedies to counteract its effects so that all are now out of danger except the servant girl, whose recovery is considered very doubtful.

An investigation of the affair showed that on Friday night some base fiend entered a pantry in the basement kitchen and scattered a quantity of arsenic upon some cold boiled potatoes, and also placed some of the poison in a pan of milk. Both the milk and potatoes were used at breakfast. The dastardly poisoner is evidently not a member of the family, as all the family partook of the poisoned food, and it is supposed that some one entered the house on Friday night, during the severe storm which raged, and committed the fiendish act.

No clue has yet been obtained to the perpetrator of this diabolical act, but we trust the guilty person will be found and be made to fully expiate the crime.

GERMAN BOY SHOT BY A POLICEMAN—DASTARDLY OUTRAGE.—Yesterday (Sunday) morning, about 7 o'clock, a German boy named Moses Danhauser, was shot and severely wounded by policeman Wm. Taylor, under most disgraceful circumstances.

It appears from the statements of the wounded lad, of Mr. Schlossman and policemen cognizant of the circumstances, that Taylor went into a private alley, leading from State street to the rear of Mr. Schlossman's German boarding house, on Randolph street, and committed a nuisance before the girls employed in the boarding house, who were at work in the back yard. They ran into the house and informed Danhauser of Taylor's conduct, and the lad went into the alley and began to remonstrate with Taylor in relation to his conduct, when Taylor rose up and drew a revolver from his pocket, threatening to shoot Danhauser. The latter instantly retreated to a door which led from the alley to Schlossman's yard, and had got inside the yard and was shutting the door when, Taylor fired upon him, the ball striking him upon the hand, and glancing to the stone wall near where he stood, rebounded and entered his groin, thus inflicting two severe though not probably dangerous wounds.

Lieut. Kennedy, of the 2d district, and officer Douglass, of the detective force, on being informed of the affair, arrested Taylor and locked him up to await the result of a judicial action. Taylor is a patrolman in the first district.

This is one of the most outrageous occurrences we have ever recorded. In broad daylight, a policeman of this city commits an outrage upon respectable women, and because a young lad remonstrates with him for his indecent conduct he deliberately shoots him down. We have been called upon to record many outrages committed by policemen upon unoffending citizens and their property, but this one exceeds them all in brutality.

THE REGATTA ON SATURDAY—THE LADY PUTNAM AGAIN VICTORIOUS.—The much talked of race between the *Lady Putnam* of the Metropolitan Club, and the *Phoenix* of the Pioneer Club, the former a four oared and the latter a six oared boat, came off on Saturday afternoon. The water was smooth, but the sky threatened rain and there was a light fog, but nevertheless a large crowd assembled to witness the contest.

The match was for $300 a side and the Champion colors, the the distance being four miles or two miles to a buoy, and return. The judges were M. L. Patrick, Esq., Chas. P. Peck, Esq., and Mr. Boyd, Capt. J. D. Webster, acting as referee.

The *Lady Putnam* was manned by Levi W. Hart, stroke; H. G. Ottingnon, W. B. Curtis and J. W. Roberts. She was pulled without a coxswain.

The *Phoenix* was manned by J. Brown, stroke; J. C. Hall, Geo. Carpenter, J. P. Smith, R. P. Pierce, R. H. Morford, J. H. L. Morford, coxswain.

The *Putnam* was started at half past four o'clock and the *Phoenix* forty seconds later, that difference being made against her on account of her extra oars. The following was the result:

Lady Putnam	32 min. [illegible]
Phoenix	[illegible]

The *Putnam* won the race easily, leading the *Phoenix* the entire distance, and had she been harder pushed would have made much better time. Both boats were built by Messrs. Newman & Randall of New York, the *Putnam* being five years old and the *Phoenix* some five months.

The *Putnam* was heartily cheered at the outcome and peaked her oars in response. After the decision of the Judges had been rendered, the boats were called into line, and the President of the Regatta Association, Mr. W. W. Peck, after a brief address, placed the Champion Flag in the bow of the *Putnam*, and as it unfolded in the breeze three hearty cheers were given by the crowd upon the pier. The flag is of blue silk, sixteen by twenty-two inches. The word "Champion" is embroidered in white floss silk, and surrounded by a wreath of oak leaves also in white, and the flag is surrounded by a white silk fringe.

After the regatta the crews of the different boats, judges, invited guests, &c., partook of a handsome lunch at the Tremont House, given by the crew of the *Putnam*. The best feeling prevailed, and after some toasts, speeches and "yarns" the company separated.

THE CONTEST OF THE FIREMEN FOR THE SILVER TRUMPET.—On Saturday afternoon the contest among the firemen for the Silver Trumpet, the special premium of Cook County Agricultural Society, came off. The Trumpet is of solid silver and cost $200, the mouthpiece and bars being lined with gold.

The rules adopted were, that the companies entering were to play a horizontal stream, from suction, through an inch nozzle and 300 feet hose, each company allowed twenty minutes from the time of taking suction; the order of playing to be decided by lot; each company to be restricted to 80 men. Each company named a person to act as judge. We give the report in the order in which they played, which order had previously been determined by lot.

No. 3 burst her hose repeatedly, and as the time allowed, 20 minutes, elapsed before it could get hose to operate, it was ruled out.

No. 4, though second best, burst her hose several times.

No. 10, while playing burst her air chamber, as did No. 6.

No. 7 having been declared the victor, the Trumpet was presented to Mr. J. H. Rees, its foreman, by Mr. U. P. Harris in a neat and appropriate address, to which Mr. Rees responded in a becoming manner. The whole affair passed off very pleasantly.

ANNUAL MEETING OF THE COOK COUNTY AGRICULTURAL SOCIETY.—On the evening of the 15th instant, the annual meeting of this society was held, Mr. J. M. Putnam presiding. The minutes of the previous meeting were laid over. A communication from Hon. L. Ellsworth, of the Dupage County Society, was read and accepted. The society then proceeded to the election of officers, to serve during the ensuing year, with the following result:

President—Dr. John A. Kennicott, of Northfield.

Corresponding Secretary—C. D. Bragdon, Chicago.

Recording Secretary—Frank W. Reilly, of Chicago.

Treasurer—H. D. Emery, of Chicago.

Vice Presidents—Hon. F. C. Sherman, Northfield; Howard Smith, West Chicago; S. H. Kerfoot, Lake View; J. L. Wilson, New Trier; Clark Runyon, Jefferson; B. B. Taylor, South Chicago; Thomas W. Hastings, Thornton; Jas. Pennoyer, Leyden; H. M. Kidder, Evanston; Ebenezer Peck, N. Chicago; Wm. Scoville, Wheeling; Henry Granniss, Maine; L. Gurred, Bremen; Madison Clough, Elk Grove; Mr. Chase, Barrington, Mr. Smith, Hanover; Henry Lytle, Palatine; William White, Niles; J. Rohl, Rich; Granvill Peck, Schaumburg; Stephen Pendit, Proviso; Jas. Michie, Lyons; S. S. Campbell, Orland, J. M. Periam, Worth; John McKilowney, Bloom; Mr. Manierre, Cicero; Samuel Maltreffy, Palos; L. B. Treadwell, Lemont.

The following named gentlemen were elected an Executive Board for the ensuing year:

J. C. Kennicott, Northfield; John Gray, Jefferson; H. D. Emery, Chicago; Jas. Michie, Lyons; S. D. Childs, Chicago; Jas. Wilson, New Trier.

Dr. J. V. Z. Blaney, Frank W. Reilly and Charles Kennicott, were appointed a committee to revise the constitution.

The Society then adjourned until 2 o'clock Tuesday afternoon, December 1st, 1857.

A DISTRESSED FATHER.—Mr. Matthew McKinney, of Veteran, Chemung county, N. Y., writes that he had a son in Chicago named John McKinney. The last he had heard of him was in July last, when he wrote to his father that he had been hurt by the fall of a stick of timber in a mill. Since then he has heard no more, and fears that he may have died from his injuries. The physician who may have attended him, the keeper of the boarding house where he lodged, or any one else who may know anything of the young man, or of his fate, will greatly relieve the mind of a distressed parent by communicating the facts.

WHEELER & WILSON'S Family Sewing Machine, so well known throughout the United States and Europe, may be examined and purchased at the western office.

These machines will stitch the finest or coarsest fabric at the pleasure of the operator, making 1,600 beautiful and durable stitches per minute.

For families these instruments of industry are rapidly becoming an indispensable of the household, and a favorite of the ladies as affording a pleasing, satisfactory and healthful pastime, for, with apparent amusement, a person can sew in one hour, with one of these machines, as much as would require ten monotonous wearing hours by needle and hand.

For manufacturers these machines are no less adapted than to family purposes.

The first premium was awarded these machines at the late Illinois State Fair and Cook County Fair.

WILLING TO STAND THEIR SHARE of the general loss in these hard times, Tappan has marked down his immense stock of fine Clothing to cost, in order to close it out before Winter sets in. Tappan believes it is better to take the Bull by the horns at once, than to let the Bull get him on his horns a few months hence; therefore he has determined to let his elegant stock of Clothing run at closing out prices.

WE understand that P. MEHRING, of the [illegible] Ice Company, has just purchased the cargo of the schooner "Belle City," consisting of 84,000 feet of Lumber, with the intention (to meet the increasing wants of our city) of erecting another mammoth Ice House, with patent cement roof, below Rush street bridge, near Lake Michigan, so that next season our citizens may again have a plentiful supply of Pure and Good Ice.

THE MALLE POST (English sole leather) traveling trunks, made expressly for European travel. Very light and very strong, are the only trunks that will stand the wear and tear of traveling on our railroads. Call and see them at W. & G. Wright's Trunk Store, 61 Clark street, opposite the Sherman House. oc17-1w.

NOTICE, SEWING MACHINES.—As our machines are not on exhibition at the Fair. We would wish to call attention to our case of specimen work, and likewise invite the public to our office, where the machine will be courteously exhibited.

SEWING MACHINES.—All persons who want a Sewing Machine of universal utility—one that will sew the lightest fabrics and the heaviest fabrics better than any other—the best for family use, manufacturing, hotel use, every use whatever—a machine that don't get out of order, and with which an industrious woman can readily earn $1,000 a year—can obtain it nowhere except at the office of I. COMMERCIAL.

MONETARY AFFAIRS.

CHICAGO, Saturday evening, Oct. 17.

There is no material change, either in the rates for money or the amount offering. First class security will bring it, at from 3 to five per cent a month. Probably the bulk of loans are effected at the latter rate. The necessities of the community compel submission to the shave, and we know of few holders of currency who make a practice of taking three per cent if they can get four, or four if they can get five.

EXCHANGE.

Our exchange market is an anomaly—partly from sympathising with the anomalous state of things in New York and partly from a home confusion which requires to be explained. On Thursday a sight draft for a considerable amount was offered to the Merchants Loan and Trust Co. at par. The President, properly enough, chose to ascertain whether it was good before buying, and requested the holder to call again. We are not informed whether he subsequently took it. Yesterday the large Produce House of STEEL, WILKINS, & Co. sold exchange on New York at 2½ per cent premium. We believe the bills were drafts of some of the heaviest houses in Montreal; at any rate no one was found to question the capacity of the checks to draw when they should reach New York. Messrs S. W. & Co., had a few more left of the same sort after the close of business. To-day one of the largest banking houses in the city has been selling at five per cent, another of the largest at ten per cent, the largest house not selling at any price, and finally, we understand, a prominent German house drawing moderately at five. Curbstone rates, meanwhile are, anywhere from eight to fifteen. The sum total is confusion worse confounded. We shall not endeavor to explain the discrepancy, but would suggest that some of the banks in this city are taking extra large bites out of their customers, and if they wish to reduce their functions to the simple business of receiving deposits and paying checks, they are taking the rapidest course to that end. Several merchants having called at our office to ascertain whether any exchange could be had at our previous quotations, we have deemed it proper to make this explanation. We hold that the lowest rate is the ruling rate. The lowest rate yesterday was 2½, and the supply exceeded the demand. There is no trade either in 10 per cent. or 5 per cent. The rate heretofore prevailing against us has not been the result of a balance of trade, but of a difference in currency. The price has been the premium which gold has obtained over our paper. This barrier is broken down—the bottom of the specie basis entirely knocked out, and our money becomes as good as anybody's. The bills of the New York State Free Banks are *current funds* in New York city, and New England money will be received very soon at ½ discount. Theoretically, our currency is better than either. It has not been protested or made liable to protest. Practically, however, it is not so good for the payment of Eastern debts; but with the late enormous shipments of grain from this port (550,000 bushels of wheat alone, this week) it is impossible that exchange should rule against us in this style many days longer, except by a combination of one class of business men against all other classes. In the view of a majority of bankers in this city, the break down of the specie basis has made no difference in the respective values of New York and Chicago funds. This sort of thing will not be tolerated here very long.

The extensive banking house of Winslow, Lanier & Co., of New York, failed to-day. They were the agents of the State of Indiana. We are not informed whether any of the funds of the State were in their hands at the date of suspension.

Stocks closed to-day firm but dull. Sterling exchange nominal at 102 to 107; Chicago & Rock Island R. R. 63½; Illinois Central bonds 60; N Y Central 65; Erie 11½; Reading 31; C & P 12½; G & C 68; Mo 6's 65½; Va sixes 81½; N Y 6's 104; Lacrosse & Mil 7½; C & T 27; C C & C 83; Mil & Miss 10; Harlem 7½; Hudson 15½; Del & Hudson 80; N H & H 105; Pacific Mail Co. 71; Harlem 1st bonds 60; N Y C sixes 70; Ohio sixes of 60 88; N Y sixes 60 57.

CHICAGO WHOLESALE MARKET.

OFFICE OF THE CHICAGO DAILY TRIBUNE, Saturday Evening, October 17, 1857.

Freights show an advancing tendency to-day, which prevents that freedom in the market that would otherwise exist. The amount of vessel tonnage in port [illegible] the vessel owners to hold for better rates. For Saturday, however, there was a very fair business done in Wheat. Some dealers, who will only look on the bright side of the picture, think the hardest times have passed; but the financial stringency is by no means over, though evidently somewhat relieved since the Eastern Bank suspensions. Receipts yesterday were 1,682 bbls flour, 111,329 bu wheat, 7,854 bu corn, 7,660 bu oats, and 1,613 bu barley; shipments were 1,127 bbls and 116,473 bu wheat.

The following are transactions and nominal rates of leading articles:

FREIGHTS—Firmer; Lake Navigation Co.'s vessels are held at 12c by sail to Buffalo, but shippers as yet decline this rate. The props Pittsburgh and Mendota take wheat at 12½c; the bark Dauntless was taken at 11½c, and the schrs Philanthropy, Corsair, Dardanelles, International and J. Cochran, were chartered last night and early this morning at 8c for same service.

FLOUR—Sales include 100 bbls "Janesville," 100 bbls "Atlanta" and 50 bbls "Nonesuch City" at $4,25; 200 bbls inferior spring wheat extras sold at $4,12. City Mills retail family flour at $5@5,50.

WHEAT—The market for spring was quite active, but the bulk of sales were at lower figures than on yesterday; some 12,000 bu in lots sold at 70c in store; 5,000 bu at 69c in store; and a few round lots well located at 69c in store; cargo sales were at a decline of 1@2c; three cargoes sold at 71c on board; one do at 70½c and one at 70c on board. EXONERATED.—We are informed, says the Detroit Advertiser, that the report that the schooner Fashion and another vessel were ashore on Point Pelee, was erroneous. No vessel except the Morning Light has lately been on that Point.

SUCCORING MORNING LIGHT.—The tug Rescue came up [illegible] Morning Light, which will remain ashore at Point Pelee. The Morning Light has been entirely lightered of her cargo. She was lying on a bar, lengthwise with it, and in not over two feet of water. The united efforts of the tugs Rescue and Relief were insufficient to pull her off. On the arrival of the Rescue, Capt. Wolverton telegraphed to the steamer Michigan, at Erie, and received an answer from Capt. McBlair, that he would proceed to her assistance.—Detroit Advertiser.

COLLISION—THE OLIVER CROMWELL SUNK.—The propeller Oliver Cromwell, Capt. Patterson, bound from Chicago to Montreal, collided with an unknown vessel on Saturday night last, during the prevalence of a fog, near Middle Island, and sunk within fifteen or twenty minutes after the collision. [illegible] The Cromwell was owned by Messrs. Walker & Berry, of Kingston C. W. [illegible] we believe she had sunk one or two craft previous to that time.—Detroit Advertiser.

LATER FROM EUROPE.

Arrival of the Steamship Asia.

NEW YORK, Oct. 17.

The steamship Asia from Liverpool at 9 A. M. of the 3d inst, arrived at 8 o'clock this forenoon. Her advices are mainly anticipated. Her files, however, contain some items of interest.

The screw steamer Jason left Southampton for New York on the 12th, with upwards of four hundred passengers.

The Newfoundland line of steamers is temporarily suspended.

The Hong Kong correspondent of the London *Times* says, that in regard to the blockade of Canton river, it is understood that Admiral Seymour had been induced to adopt this course in consequence of the American steamer Antelope having proceeded up the river as far as Whampoa, and it is the impression that the Americans and some other foreigners were desirous of forming a trade with Canton, to which, it is said he will not object.

Nena Sahib was besieging the fortress of Lucknow in person. He had cut off the canals which supplied the citadel with water.

Recruiting for the army was progressing in England at the rate of 1,000 per week.

A report was current at Paris of an intended conference at Vienna with respect to a settlement of the Danubian Principalities and to the difference with Naples.

It is stated that the Emperor of Austria will visit the King of Prussia at Berlin.

Despatches from Constantinople intimate that the early recall of Digenial Bey, the Turkish Ambassador at Paris, had been resolved upon.

A Vienna letter says that the Porte is about to issue a circular to the great powers, refusing to consent to the union of the Principalities.

Letters from the Persian frontier say that insurrectionary movements had broken out in various places.

It was reported in Paris, that in consequence of recent persecutions of Europeans in Madagascar, a combined English and French expedition against the Queen of that country was not improbable.

The Asia brought twenty thousand dollars in specie.

She reports having passed on the 3rd the steamship Europa, from Boston on the 5th; the Baltic, from New York the 5th; the Persia, from New York the 10th, and the City of Washington, from New York; all for Liverpool.

Financial Intelligence.

NEW YORK, Oct. 17.

Messrs. Winslow, Lanier & Co., brokers, have suspended. They have never been borrowers, and owe nothing but balances due their correspondents, principally at the West. Within the past three months, their means have been invested in strictly first class commercial paper, and call loans with stock collaterals. The call loans are not responded to, and a large amount of the paper in a state of suspension. They have been gradually winding up their affairs for a year past, and will now go at once into liquidation, abundantly able to pay all their liabilities and have a large surplus.

The Metropolitan bank has been for several days past in negotiation with the Suffolk bank of Boston, in regard to Eastern money, and an arrangement will probably be made in a few days under which the former bank will resume the reception of Eastern money on deposit at ½ per cent. discount.

The rates for uncurrent money are becoming easier. State at half to 1 per cent.; Eastern at 2 per cent.; Philadelphia at 2 to 3 per cent.; Pennsylvania 5 to 6 per cent., and Western and Southern at 5 to 10 per cent.

PHILADELPHIA, Oct. 17.

A rumor was prevalent here that the Pennsylvania bank had made an assignment, but is authoritatively contradicted this morning by a Director, who positively declares that the subject has never been broached in the bank, nor entertained by any member.

HARTFORD, Oct. 17.

The Charter Oak, Mercantile and Exchange banks continue to receive the bills of the other suspended banks, and will not discount them unless they are conjoined.

CINCINNATI, Oct. 16.

At a meeting of the bankers this morning, it was decided to receive at par the notes of all New Orleans banks, and all banks that are bankable in New York, Boston, Philadelphia, Pittsburg and Baltimore. This causes a much improved feeling in the money markets.

BOSTON, Oct. 17.

The result of the Bank Directors' meeting to-day authorizes an increase of loans to the amount of three million dollars, which will probably ease the pressure somewhat next week.

In stocks prices are better, and more orders for investment are coming in.

WASHINGTON, Oct. 17.

The amount of Government Stocks redeemed at the Treasury yesterday and to-day, are $37,000.

The amount of money subject to draft in the Treasury, is $12,897,830, a reduction from last week of upwards of $2,500,000.

The total receipts of the week have been about $796,000.

The Elections.

OHIO.

COLUMBUS, Oct. 17.

The *Journal* of this P. M. puts Chase, Republican, 65 ahead, with Paulding and Meigs to hear from. Paulding gives Chase 169 majority, and Meigs gives him 200 majority.

The official votes change the reported majority in the aggregate in favor of Chase. Morgan gives 400 majority for Chase; Noble county gives 41 majority for Chase, and not 100 for Payne. Monroe county gives Payne 1,325 majority, and not 1,500 as reported.

IOWA.

BURLINGTON, Oct. 17.

Returns as far as heard from indicate the election of Judge Lowe, Republican, for Governor, by three or four thousand majority. The Republicans have a majority in the Senate.—The House is yet in doubt.

MINNESOTA.

DUBUQUE, Oct. 17.

Minnesota has been completely swept by the Republicans. They have elected their Governor, Congressmen and a majority in the Legislature.

Custom House Robber Arrested.

WASHINGTON, Oct. 17.

Somerville, one of the robbers of the Richmond to day, and a portion of the deposits recovered. Wheeler, his accomplice, was committed to jail here yesterday, on the same charge. The latter, when arrested, gave up $300, a pair of gold diamond studs, a splendid gold watch, and a bunch of skeleton keys. He is known to be the son of a celebrated English thief, and he has committed heavy thefts in various cities of the United States.

Somerville was convicted of the robbery of the jewels in the patent office, which took place a few years ago.

APPOINTMENT.

Samuel Archibald, Chief Engineer of the Navy Yard here, was to day appointed Engineer in Chief of the Navy.

Extensive Fraud.

PITTSBURGH, Oct. 17.

James O'Conner, of the firm of O'Conner Bros. & Co., has been arrested here, charged with defrauding the Merchants' & Manufacturers' Bank out of upwards of $300,000, though collusion is charged with the Cashier. He has given bail in $20,000. O'Conner is a son-in-law of Mr. Scott, late President of the Bank, who resigned yesterday.

The fraud was effected by the overdrawing of his accounts, as is alleged, with the privity of the Cashier.

Men Buried Alive—The Cunningham Case.

NEW YORK, Oct. 17.

While some laborers were excavating a cellar in Wyckoff street, Brooklyn, a portion of the embankment gave way and six men were buried in several tons of lose earth; of this number three were taken out dead, and when our reporter left the others had not been recovered.

The Cunningham baby case was to day disposed of by a postponement until the 29th inst., when the order will be settled. The trial will take place at Newburg, Orange county, on the second Tuesday in November.

The Railroad Accident.

SYRACUSE, Oct. 17.

Mr. Clinton E. Brouson, one of the passengers injured by the accident on the Central Railroad yesterday, died here this morning.

Mr. Petinger, another injured passenger, lies in a precarious condition, and Miss Franklin continues low, but is not considered in immediate danger.

The remainder of those injured are doing well.

Sloops of War.

BOSTON, Oct. 17.

Orders have been received at the Portsmouth Navy Yard to fit the sloop of war Vandalia for sea immediately.

The sloop of war St. Louis is expected to arrive at Portsmouth the latter part of this month, and the John Adams shortly after.

NEW YORK, Oct. 17.

The steamship Fulton sailed at noon for Southampton and Havre, with 87 passengers and $57,000 in specie.

The steamer New York sailed for Glasgow with 119 passengers.

On a Reef.

NEW YORK, Oct. 17.

The Northern Light, on her homeward passage from Aspinwall, got on a reef in the Caribbean sea, where she remained eight or nine hours.

One More Disconsolate.

With Dodge,—Brigadier General Augustus Caesar Dodge, ex-Senator in Congress from the State of Iowa, and Minister Plenipotentiary and Envoy Extraordinary to the Court of Madrid—and Jones,—Brigadier General George Washington Jones, also Senator in Congress from the State of Iowa aforesaid, and candidate for whatever may turn up—with these militant gentlemen, gaudily bedizened though guiltless of blood, goes Shields,—Brigadier General James Shields, ex-Senator in Congress from the State of Illinois, and candidate for a seat in Congress as Senator from Minnesota,—goes down in the list of disconsolate who refuse to be comforted. Neither Monterey, Chapultepec, or Cherubusco, in Mexico, of Alma, or Inkermann, or Sebastopol, in the Crimea, or Lucknow, or Delhi, or Cawnpore, in India, ever saw such ruthless slaughter.—Three doughty Brigadiers in a heap—all cold and stark? Cruel Fate, how unkind! Did not Dodge brave the fury of the hidalgos of the Spanish Court; has he not swaggered through the lofty palace halls, reminding all who saw him of the banished barbarians that once occupied the land, all for the sake of renown at home? Did not Jones—Brigadier General George Washington Jones—lately engage in a play of fisticuffs and clapper-clawing with Wilson, who is certainly a Judge, and possibly a Brigadier General also, a rival candidate for Jones' seat, for the vindication of his prescriptive right thereto? Did not Shields vote for the Nebraska bill, and curse himself for the act? Did he not shake the dust off his military boots at the threshold of Illinois, and link his civic fortunes with Minnesota? Has he not made Free Soil speeches, and cast Pro-Slavery votes? Has he not acted the part of Cincinnatus, in an humble way, and wedded himself to agriculture, that political thrift might follow pretended ploughing? Answer, Oh Fate, and say why, in the face of such enumerated merits, why you have registered such harsh decrees!

It is a military adage that "every bullet has its billet." In these latter days, so has every ballot. Shining swords, waving plumes, laced coats, and even heroism, like that of Jones or Dodge, go down before that potent paper weapon, like the ranks of Sepoys in Delhi, under a *ricocheting* fire from well-served guns. Three Brigadiers, "dead for a ducat" in one October day. Three, did we say? Four, an' we are true men! Brigadier-General Erastus Ransom, of Kansas—is he not among the slain? Titles, though never so resounding, are no protection. Douglas is a Corporal in the German Guards, or other association of Teutonic bombardiers of our goodly city, elected by acclamation and their free will. Let him prepare for the fate by which four Brigadiers are overwhelmed!

THE OCTOBER ELECTIONS.

Minnesota Election—Great Republican Triumph.

A private despatch from Galena assures us that Minnesota is Republican to the core—that Ramsey with every other candidate on the Republican State ticket is elected—that Rice, Shields, Gorman, Steele and the other harpies and cormorants of the Administration and convenient puppets of the Slave Power are bidden to take the rear rank—that the new Sovereignty, with staunch Republicans in command, comes gallantly up to her proud place in the sisterhood of Freedom-loving States. This is a glorious result, and we congratulate our friends in the high Northwest, who have fought the good fight, that they have achieved so memorable a victory!

In all the discouragements and reverses incident to a season of panic, this triumph in Minnesota—due in part to the stringency in the money market, which prevented the successful accomplishment of the stupendous frauds that the Border Ruffians had planned, and which failed only because the means to carry them out could not be obtained—is a consolation that reconciles us to the partial reverses that the Republican party has experienced in Ohio and to its utter defeat in Pennsylvania. The victory secures us, unless a Slave-driving Congress should defy the will of the people, and refuse the new State admission into the Union, two Senators whose weight in the councils of the nation will be felt where it is most needed, and in behalf of that sacred cause for which Republicans contend. This is substantial fruit!

INDIANA.

Valparaiso, Porter Co., Ind., Oct. 15, 1857.

Eds. Tribune.—The Republicans have carried this county by 150 majority. Vote very light.

Yours truly, N.

IOWA.

[Correspondence of the Chicago Tribune.]

Marion, Linn Co., Iowa, Oct. 14th, 1857.

There was a very small turn-out to the election to-day; but 482 votes were cast, while the records show there are 719 votes in the town.

R. P. Lowe, for Governor, and Abner Faville, for Lieut. Governor, have each 61 majority! E. N. Yates, (Rep.) for representative, has 56 majority, and S. D. Ward 60 majority! This county elects two representatives. Our majority in the county will be small—probably about 250.

The Amalgamationists have gained about 30 in this town. This result has been brought about from a lack of thorough organization on our part.

J. B. [illegible],
Editor Linn Co. Register.

California.

We published on Wednesday morning a telegraphic summary of the California news, received by way of New Orleans. Of the election, the result of which was then announced, the San Francisco *Bulletin* says:

We have not yet got full returns from some of the distant counties; but the vote about realizes our anticipations. So far as we are able to make it, the following is a correct summing up of the vote for the three gubernatorial candidates:

For Weller, Dem.	48,000
For Bowie, K. N.	12,214
For Stanly, Rep.	10,000

By this there will be seen that there is a great falling off from the vote in the late Presidential contest, which was 110,217. The total vote cast for Governor will not exceed 80,000. Weller gets some 11,000 majority over both Bowie and Stanly—while Stanly's majority over Bowie is six thousand.

The vote for President was:

Buchanan	[illegible]
Fillmore	[illegible]
Fremont	[illegible]

The majority in favor of paying the State Debt is very decisive. Indeed but two counties (Santa Clara and Humboldt) voted in favor of repudiation.

Mining operations throughout the State were carried on as vigorously as ever. The various fluming companies on the rivers were getting fairly to work, and many of their enterprises were resulting successfully.

The crops throughout the State have generally been garnered in excellent condition.

Georgia.—The Augusta *Constitutionalist* has returns of the late election in Georgia from 105 counties, which give the Democratic candidate for Governor a majority of 9,472 votes, according to its calculation. The remaining thirteen counties are Appling, Charlton, Clinch, Coffee, Colquitt, Berrien, Dade, Harris, Irwin, Marion, Meriwether, Union and Ware. From these returns, the *Constitutionalist* is inclined to the conclusion that the majority of Judge Brown over Mr. Hill will equal, if it does not exceed, that of Gov. Johnson over Judge Andrews in 1855, which was 10,256 votes.

The Official Vote of Tennessee.—The Memphis papers publish the official vote of Tennessee, as compared in joint ballot of the two Houses. The returns are all official, except the county of Jefferson, which has not returned, but the vote given is correct. The full vote of the State is:

For Isham G. Harris, (Dem.)	[illegible]
For Robert Hatton (Amer.)	[illegible]
Harris' majority	[illegible]

Pennsylvania.—The returns of the Pennsylvania State election are so completely one-sided that little interest is felt in the details. The majority for Gen. Packer and all the rest of the Democratic ticket is likely to be between forty and fifty thousand, and in each branch of the Legislature the Democrats will probably have two-thirds of the members.

Baltimore.—The Baltimore election of Wednesday is stigmatized as a farce by the *Sun* of that city. The Americans carried nineteen of the twenty wards, many of them without serious opposition. The total American vote is 11,478 to 2,769 opposed. Last November Fillmore had 16,900 votes, Buchanan 9,871.

Mississippi Election.—Mississippi has of course elected the "Democratic" ticket entire. Wm. A. Lake, her only "American" Representative in the last Congress, has been thrown out. Gen. John A. Quitman has been re-elected without opposition. We believe Reuben Davis is Mr. Lake's successor.

The Land Speculation.

Shoals of people from New York, New England and Pennsylvania are making their way Westward about these days, to look after their money invested in Western farming lands and city and village lots, at a time of great inflation, or loaned to Western men who have given lands and lots as security. Most of these are bound to St. Paul, Minneapolis, and other places in Minnesota, or to the thithermost parts of Iowa—the points where the speculative fever has run the highest and where investments and loans have promised the greatest gains.—They will go back satisfied that their investments are permanent, and that the newer parts of the West must go through the process to which Illinois, Indiana and Michigan were subjected in 1837 to 1850, and that, in the mean time, real estate not needed for agricultural purposes, and city and village lots not demanded by the increasing growth of the cities and villages in which they may be located, will not only be dull, but a drug in the market. The amount of land now for sale is immense—out of all proportion to the demand at present, or any prospective demand for the next ten years; and there are enough village lots now staked off in the Northwest to furnish a building spot and garden for each of half the inhabitants of all New England, if they should take the freak of emigration into their heads. The witty member of the Minnesota Legislature did not misapply his satire when he offered a resolve that not more than three-fourths of the Territory should be laid out into cities—that at least one-fourth of its area should be reserved for the cultivators of the soil.

The land speculation has been only a curse to the permanent prosperity of the West. Though it has invited many settlers, emigrants brought here, through its agency, have not been those upon whom the productiveness of the country depends. They have looked to increase of values for their gains, rather than, the production of wealth from the soil, the forest and the mines. But the class of settlers that high prices have either repelled or driven to the far frontier, where their crops for years to come will be eaten up by cost of carriage to market, is that which we most need and upon which at last all permanent values will depend. Hence, though in the general crash, in the immense losses and wide-spread distress which the collapse of the bubble has produced or will produce, there will be many cases of individual hardships, the effect of a reduction of prices cannot be otherwise than beneficial to the country at large. It is true that thousands of men in possession of landed property held for purely speculative purposes, will not figure so largely on the Assessor's books as they did last year, and thousands who imagined that they were as rich as Croesus in a few quarter sections of prairie near some prospective city of euphonious name, or stream of doubtful utility for navigation, will be compelled to go to work to get the wherewithal to stop hungry mouths; but it is also true that the large accessions of population which we will continue to receive will be settled in cheap homes within easy reach of railroads and canals, and that the efforts of all who would be rich must be confined for a long time to the production of values and not to the indefinite and ridiculous multiplication of values already existing.

Our advice then to the usurers and speculators rushing through here by every train, breathless with fear that their expected profits may not be realized is—and we ask nothing for the suggestion—to go home and wait for the development of events. They have been largely instrumental in producing the chaotic state into which all affairs are now plunged; let them wait patiently and bear their share of the losses which inevitably must accrue. Let them take a St. Paul paper home with them; and, if only a single copy, they will find therein a lesson that we would have taught them years ago. Column after column of advertisements, announcing the sale of shares and lots in new cities, frequent references to exorbitant rates of interest demanded and *promised*, indications of luxurious habits that no new country can afford, and last of all, evidence in the published manifests of arriving steamboats, that the food of the country which is good only for agriculture, is bought abroad—in a word, that the values of everything have been purely fictitious, and that speculation has been the business that all have pursued. With this before them, they need not wonder that they will be forced to wait for their harvest until another period of inflation occurs, or that, though they lose thereby, there is a necessity for going back to the days of industry and production.

De Mortuis Nil Nisi Bonum—George Washington Parke Custis.

[From the National Intelligencer.]

It becomes our painful duty to announce the decease of the venerable George Washington Parke Custis, the last of the members of the family of Washington.

Mr. Custis died at Arlington, near this city, after a brief illness, on the morning of the 10th instant, in the 77th year of his age. For several years he had stood alone in his relations to the father of his country, ever anxious, with filial reverence and affection, to illustrate his character, and from the rich stores of his never-failing memory bring forward an annual tribute to his immortal worth. Known and honored by his fellow countrymen, his departure will awaken universally a profound regret.

Born amid the great events of the Revolution, by the death of his father, (Col. Custis, of the army, and son of Mrs. Washington by a former marriage,) which occurred near the close of the war, he found his home during childhood and youth at Mt. Vernon, where his manners were formed after the noblest models, and from the great worthies of that period, frequent guests there, he received impressions of wisdom and patriotism that were never effaced. Under the counsels of Washington he pursued his classical studies at Princeton, and when deprived by death of his great guide and father (and soon after of his revered grandmother), he devoted himself to literary and agricultural pursuits on his ample estate of Arlington, the gift by will of that illustrious man. He was early united in marriage to Miss Mary Lee Fitzhugh, of Virginia, a lady of unsurpassed excellence in all the relations of life, and whose irreparable loss, three years ago, he continued, with sorrow and affectionate admiration, to his final day, profoundly to deplore. One daughter (Mrs. Lee, wife of Col. Robert Lee, of the army), and several grandchildren survive him.

Mr Custis was distinguished by an original genius for eloquence, poetry, and the fine arts; by a knowledge of history, particularly the history of this country; for great powers of conversation, for an ever-ready and generous hospitality, for kindness to the poor, for patriotism, for constancy of friendship, and for more than a filial devotion to the memory and character of Washington. His early speeches on the death of Gen. Lingan and the overthrow of Napoleon were everywhere read and admired, even by those who dissented from the sentiments, for the beauty of their conception and their impassioned eloquence. Those familiar with the columns of this journal will not forget how largely we and the country are indebted to the warm and ever-cheerful spirit of the deceased for many invaluable reminiscences of revolutionary history, of the distinguished men of those times, and especially of the private life of their glorious chief in the retirement of the shades of his home at Mount Vernon.

Thousands from this country and from foreign lands who have visited Arlington to commune with our departed friend, and look upon the touching memorials there treasured up with care of him who was first in the hearts of his countrymen, will not forget the charm thrown over all by the ease, grace, interest, and vivacity of the manners and conversation of him whose voice, alas! is silent now. The multitudes of our fellow citizens accustomed, in the heat of summer, to resort to the shades of Arlington, will hereafter miss that old man eloquent, who ever extended to them a warm-hearted welcome and became partaker of their joy.

Long a believer in the great truths of Divine Revelation, Mr. Custis turned to these for consolation in his last days, and died in communion with the Protestant Episcopal Church.

The above is one of the most delicate pieces of placid satire that has ever come under our observation even in the quaint old *National Intelligencer*. Indeed, the point of the irony is so happily concealed that we venture the assertion, not half the readers of the *Intelligencer* outside of Washington and Arlington, would be aware of the barb rankling down under this mass of rhetoric. For the enlightenment of its numerous subscribers throughout the West we supply a translation of the sarcasm:

Mr. Custis died at Arlington, near this city, after a brief illness, on the morning of the 10th instant. For several years he had stood alone in his relations to the immortal Washington, seizing upon the occasion of every public dinner to make a tipsy speech, commencing: "Dandled upon the lap of the Father of his Country, I—;" whence he came to be known in gastronomical circles as the Inevitable Custis. His departure will awaken the sentiment of surprise that the event had not transpired some years earlier.

Born amid the great events of the Revolution, he found his home during childhood and youth at Mount Vernon, where his manners might have been formed after the noblest models, had not nature interposed and stamped him a dolt. He was early united in marriage to Miss Mary Lee Fitzhugh, of Virginia, a lady of unsurpassed excellence in all the relations of life, vindicating her woman's nobility by avoiding the society of her husband for many years previous to her death, on account of his notorious licentiousness—a licentiousness which was strictly Virginian in its impartiality for color. It is argued that he was a consistent member of the Democratic party.

Mr. Custis was distinguished by an original genius for the eloquence of the dinner table, and still more so for zeal in displaying it. His *forte*, however, was in the department of the fine arts. Many members of Congress during the past thirty years will call to mind his persistent assessment of the Rotunda with products of his studio, which would have disgraced the sign-board of any tavern in Illinois. People passed his daubs, but he persevered with the unabashed spirit of an Angelo, consequently it could have been no lack of ambition to excel, which prevented his becoming one of the best painters, but rather a native incapacity for form, and deranged conceptions of color. His patriotism was unbounded. Never having been placed in an emergency calling for personal valor, he will not occupy the pages of our country's history to an invidious length, but from his known anxiety to be arrayed on the tented field, we infer there were few more ardent patriots than Mr. Custis. Those familiar with the columns of the *National Intelligencer* will not forget how largely the country is indebted to Mr. Custis's eagerness to see his name in print.

Thousands who have visited Arlington to look upon the memorials there treasured up, of him who was first in the hearts of his countrymen, will not forget the mortification excited by the thought that George Washington Parke Custis was the keeper of those memorials, and that he could ever have passed a moment in the society of George Washington.

"Long a believer"—

This is what the *Intelligencer* intended to have us understand, and when thus brought down to the comprehension of the rural districts, it has the merit of plain unvarnished truth.

Agreement of Railroads for transferring Freight and Live Stock.

[For the Chicago Tribune.]

Articles of agreement made and entered into this the 15th day of October, 1857, at a general Railroad Convention, held in the city of Cleveland, State of Ohio, for the purpose of promoting the interests of all railroad corporations there represented, and more especially referring to the carrying rates of live stock over the several connecting and competing railroads.

To avoid competition and the reduction of the rates of freight on live stock from the West going East, the several railroad companies hereunto annexed by their respective authorized agents one with the other, agree and bind their respective companies to carry out fully and faithfully the following contract, viz.:

First. That Suspension Bridge and Buffalo shall be taken as common Eastern points, and Chicago, Joliet, Mattoon, State Line, Ind., and Terre Haute, as common Western points, between which the price per car for cattle and horses shall be one hundred and twenty-five dollars, and the price per car for hogs shall be one hundred and five dollars.

Second. That all roads east of the Western points may and shall fix their own local rates. These same paid to the road on which the stock is loaded and the balance pro-rated between the road or roads forming the line to either of the Eastern common points. It being distinctly understood and agreed that the price shall not be less to the Eastern point from the point of shipping than the price established by the shortest line. It being the intention of this agreement to make no difference in favor of any line, but giving the road furnishing the stock the benefit of the prices established in this article.

Third, That whenever any road west of the western common point may wish to run their cars or obtain stock from off the line of any connecting road, the last named road shall be entitled to and no more than the following rates, viz: For all stock hauled less than ten miles, $6 per car; hauled more than ten and less than twenty miles, $7 per car; hauled more than twenty and less than thirty miles, $12 per car; hauled more than thirty and less than forty miles, $14 per car; hauled more than forty and less than sixty, $16 per car; hauled more than sixty and less than eighty, $20 per car; hauled more than eighty and less than one hundred, $22 per car; for all stock hauled more than one hundred miles, 20 cents per car per mile.

Fourth, Two hundred and ten square feet of platform of the car shall be taken and considered a car for which the prices herein named are to apply.—And all roads whose cars vary from this specification shall vary their prices to correspond.

Fifth, In case the roads running from the common Eastern points, East, make any reduction in their price to New York, so as to create competition, the roads hereto annexed agree to raise their price as much as they reduce. This rule does not apply when the rates east are uniform.

Sixth, Each company forwarding any stocks shall require the owner to execute the ordinary release to the companies from the liability of damage and loss while in transit.

Seventh, Any company hereto annexed varying the prices established or any other part of this contract shall make due redress to the party aggrieved within ten days after notice, and in case of disagreement in any particular it shall be decided by referees, each party choosing one, who in the event of disagreement shall choose a third whose decision shall be final.

Eighth, In case, after the decision of the referees or the refusal of any party to elect a referee for arbitration, the party offending shall be considered no longer any party to this agreement, and all other parties will not bill to or on the road of the offending party, or hold themselves in connection with them.

Ninth, This contract to be in force until May 1st, 1858, unless changed by consent of the majority of the parties hereunto annexed.

Tenth, No line or road east of the common points shall charge so much less east of the common points than the price named in this contract, so as to in any way induce the driving stock off from points west of the common point to any point east of the common points above named.

It is understood that this agreement takes effect from and after November 1st, 1857.

Terrible Fire at Grand De Tour.

MESSRS. ANDRUS & BOSWORTH'S PLOW FACTORY ENTIRELY DESTROYED—LOSS $60,000.

[Correspondence of the Chicago Tribune.]

Grand De Tour, Ogle Co., Ill., Oct. 14, 1857.

The extensive plow factory of Messrs. Andrus & Bosworth was discovered to be on fire about half-past 11 o'clock last night, and before anything could be done, the whole building was enveloped in flames.

They succeeded in saving all their books and papers. They had on hand about $20,000 worth of plows, that were all ready for market, all of which was consumed, together with all of the expensive and labor-saving machinery that they had in operation. The fire is supposed to be the work of an incendiary, as it was first discovered in the paint shop, where there had been no fire for months, and where it was folly to contend with it on account of the paint, oils, &c., that were in the room, which burned with fearful rapidity. It required the greatest exertion to keep the stores on the opposite side of the street from burning, so great was the heat. The night was very favorable, not a breeze to fan the raging element, and the dense fog putting out all sparks, so that no further damage was done to the town.

Their loss will probably exceed $60,000, with an insurance of only $10,000.

About one hundred hands are thrown out of employment. It is a severe loss to the proprietors, but no more so than to the town and to every citizen in Ogle county, and they have the sympathies of the entire community. It is the first fire of any moment that ever occurred in the town, and the facilities for fighting the unconquerable element are extremely limited.

Yours, in haste, Ogle.

The Germans of Davenport.

[From the Gazette, Oct. 15.]

* * We cannot close this congratulatory article without expressing the full and warm appreciation of our party, of the earnest labors of our German born fellow-citizens. They marched to the polls in almost solid phalanx, and gave their votes for the party of freedom, for the true and only true Democratic party of this Republic. Many of the German born who had heretofore been known as "Democrats," right-faced into the Republican ranks. The Germans did their whole duty, and we cheerfully divide with them the glory of the victory. We hope to have the gratification of battling side by side with them again, and frequently, in the cause of human and political liberty.

THE OTHER SIDE.

[From the Davenport Democrat.]

The Result.—There is much to surprise in yesterday's contest. Its solution, however, is easy. Our city is swayed by a mass of red-republican zealots whose souls having been crushed out by the Federal tyranny of Europe come here, and deceived by the lies of specious demagogues, and ignorant of the first principles of our constitutional character, vote for a mythical—Liberty.

The Mercantile Killed and Wounded for a Week.

One hundred and sixty-seven failures of important houses are recorded during the last week. At this rate, soon few will be left standing.

The desperate state of the foreign silk and dry goods trade is shown in the fact that some of the heaviest houses, with stocks worth millions have turned retailers and are wielding the humble yard stick in preference to total loss in wholesale sacrifice.

The next change in the drama will be the rebound from England, France and Germany, especially the first. Already the London *Times* has raised the note of panic; the necessarily intrinsic worthlessness of American Railroad securities is the theme. When England shall have received the shock, then the cock-a-whoop for the line of steamers, and trade direct with the rest of mankind, will writhe. Ever looking to Europe with its wars and famines, and ups and downs, as the best customer for cotton, in preference to mills at her own doors steadily working and ever-going, the South will now have another opportunity of enjoying the results of bastard Free Trade. How will it be when cotton is down to six or eight cents a pound?—*N. Y. Tribune, Oct. 16th.*

Latest from Kansas.

We had the pleasure of a visit last evening from Mr. Ferrell, of the Leavenworth *Times* who left city on Monday at noon. The information that he brings confirms our previous advices, that the Free State men have carried the territory. Parrott's majority will be 5,000. The House will stand, Free State 23, Pro-slavery 16. The Council has a majority of Free State men elected. Gov. Harney disapproves the voting of the troops at Kickapoo. Walker, it is said, still vindicates it as a peaceful employment of the army of occupation.—*St. Louis Democrat.*

MORE OF THE SPECIE PANIC.

The Bank of the State of Missouri—St. Louis Still a Specie Paying City.

[From the St. Louis Democrat, Oct 16 h.]

Yesterday the panic, which has been sweeping away with its breath the banks and banking institutions of every other city in the land, fell heavy upon St. Louis. The eastern and southern news of the preceding day had caused great uneasiness amongst bill holders and depositors of the various chartered institutions, and, as soon as the banks opened, it became evident that nothing short of a practical test of their strength could have any effect in restoring confidence.—The journals of the city made no attempt at disguising the true state of affairs. They indicated the trying emergency that was at hand, and plainly stated what was expected of them by the people. Words were not mouthed, conventional stability articles were not written, but the grave responsibility that rested on their action was shown up, and the penalties of forfeiture and liquidation calmly looked in the face. The understanding was explicit on all sides, and now that the day is over, we are proud that our banks have preserved their honor untarnished, and come forth stronger than before in public esteem.

The Bank of the State of Missouri stood in the front of the conflict for many reasons, and it was upon that institution the weight of the pressure rested. The apprehensions that always rise to the surface in times of danger clustered around its fate, and avarice and eagerness and necessity thronged its doors. In justice to many of our citizens, however, it is proper to add that the demands which were so early made upon the Bank of the State of Missouri, as well as one or two of the other charter banks, were caused more by the apprehension that weak and timid counsels would prevail, and the banks suspend at once, than by any doubt of the ability of the several institutions to pay out to the last in specie. A statement was circulated, with what truth we know not, that the different bank presidents had held a meeting the night before to discuss the propriety of a general suspension. This alone was enough to create a tumultuous doubt of their action. If the officers are even entertaining such a thought, said many who would have been perfectly willing to link their fortune to the solvency of the banks, then we will withdraw deposits, and not have them locked up in their vaults, where the coin will do neither them nor us any good. Numbers of our most courageous merchants, who would never have flinched from the banks in confronting peril, were more or less operated upon by this ill-judged meeting, and checked out for the time being.

On Main street the scene presented was a most exciting one. Men were congregated along the sidewalk in front of the State Bank as spectators, while a crowd hung round its portal, eager for admittance in their turn. In looking at the rush of haggard faces, we were most forcibly reminded, and we say it without intentional disparagement, of a pack of hungry wolves endeavoring to pull down an aged buffalo who was standing at bay. Hour by hour the circle was drawing closer, and the opinion was becoming current that he must yield, when at last, clearing himself of all pursuers, he bounded off free and unharmed over the plain. In other words, the Bank of the State of Missouri has gone through the trial and maintained itself nobly.

The Railroad Convention at Cleveland—Its Organization and Objects.

[Correspondence of the Cincinnati Gazette.]

Cleveland, Oct. 15—7 A. M.

The Convention met at seven o'clock last evening, in the large room of the Cleveland & Columbus and the Lake Shore Companies. The representation is general and the attendance unexpectedly large. Nearly every Railroad west of Niagara Falls, including the Canadian lines, has its superior officers here, in addition to those of three of the great eastern lines, viz: N. Y. & Erie, N. Y. Central, and Pennsylvania Central. A number of New England Companies are also here by their delegates.

Fifty-three roads are represented, and the number of delegates exceed one hundred and fifty, embracing most of the strongest men in the profession. Among them are Hon. Alfred Kelley, John Edgar Thompson, John Brough, J. B. Jarvis, W. H. Clements, John Durand, Charles Vibbard, John Kilgour, C. Dennis and S. S. L'Hommedieu. I have seen many similar assemblies since 1852, but never remember to have witnessed one in which all seemed so thoroughly impressed with the importance of the business which had called them together. It will be remembered that this is an adjourned meeting from that held at Columbus on September 24th ult., at which the reforms proposed by the four great Eastern lines were considered, and in consequence of the non-representation of several important roads, laid over to the present. The meeting here organized with J. B. Jarvis, President of the Michigan Southern road, as President; George Barnes and G. W. Fulton, Secretaries. Immediately after the organization, the names of the representatives from each road having been handed to the Secretaries, a committee of thirty members selected by the President, on motion of Judge Jewett of the Pittsburgh and Cincinnati road, was appointed to prepare business for the Convention. In the selections care was taken that each of the great through routes of travel should be fully represented.

Mr. Brough made some remarks on the importance of the measures that would be presented to the convention, he reminded them that they had assembled to discuss the interests and propose measures of reform, and, if possible, relief to enterprises in which there had been invested many millions of capital now in a condition of great peril; one important question before them was reduction of speed on their roads. He hoped that they would not lose sight of another equally important—the reduction of speed in the convention—and that although he knew how much all were needed and must desire to be back again upon their roads, he trusted they would feel their duties here more pressing and would remain long enough to calmly and deliberately consider what was to be done in the crisis at which they had arrived, and that whatever measures should be adopted by the convention, would, on their part, be carried out inflexibly, thus making this an exception to all former conventions.

ORGANIZATION.

John B. Jervis, President of the Michigan Southern and Northern Indiana Railroads, was called to the chair, and George Barnes Superintendent of the Marietta and Cincinnati, and Geo. W. Fulton, of the Columbus, Piqua and Indiana road, were made Secretaries.

The following resolutions, recommended by the Columbus meeting, were now read, and, by resolution, made the basis of the action of the Committee:

1st. Neither Company shall hereafter, either directly or indirectly, employ runners or agents of any description for the purpose of soliciting passengers, or allow any compensation by way of commission, drawback, or otherwise, for procuring such passenger business; but each party shall be at liberty to employ one person as a traveling agent to inquire into the sale of tickets by connecting Roads over the line of Roads represented by such agent, in order to ascertain if the Company such agent represents is fairly treated. Each Company, whose road terminates at any river or lake port, may also employ not exceeding two runners or agents to procure passengers as against water craft.—Such agents must be paid by the several Companies forming the line so terminating. It is further agreed that the parties thereto will dispense with the runners herein provided for so soon as Steamboat Companies or owners will dispense with theirs.

2d. That an increase on all rates of freight is required, and expedient at this time—that the rates be made uniform between competing point by all lines—that the classification now in use be continued. No line shall employ more than one man as freight agent or solicitor of freight at New York, Boston, Philadelphia or Baltimore, or at the principal lake and river ports in the West. No line shall allow any drawback or commission for procuring freight. That an addition of not less than ten per cent. on regular rates shall be charged by all Express Companies, giving time receipts over any line, or by any Railroad Company giving or accepting time receipts independent of such Express Companies.

SHARP DEBATE ON THE ABOVE PROPOSITIONS.

The tug of war came on after the reading of the second resolution given above. The debate revealed the keen competition between the several leading East and West lines.

Mr. Case administered a sharp rebuke to the representatives of the Northern and Lake Shore roads on their ignorance of geography, and forgetfulness of the fact that there were three thousand miles of railroad south of the Lake Shore lines, and their rights to a legitimate share of the traffic of the country must be religiously respected in the Atlantic cities.

The peculiar relations of the Pennsylvania Central Co. to Leech & Co., of New York, was the subject of an an exciting "passage" between Geo. W. Case and J. Edgar Thompson on one side, and Rockwell and Durand on the other.

Mr. Rockwell, President of the Cleveland & Pittsburgh, thought the effect of the Pennsylvania Central paying Leech & Co. in New York a commission on all the freights they obtained, and confining the right to solicit freight exclusively to that firm, had the effect to throw into their (Leech & Co.'s) hands the direction and indirect control of the freight after it passed the Ohio River—that Leech & Co. would favor certain Western lines to the exclusion of others—that the example was pernicious.

Mr. Thompson said Leech & Co. could not control the direction of freights beyond Pittsburgh—they were exclusively the freight agents of the Pennsylvania Central, only differing from other freight agents in that they received a commission instead of a salary.

Mr. Rockwell—impressively—Is it within your knowledge that Leech & Co. have no agent at Cincinnati?

Mr. Thompson—more impressively—I know it.

The following delegates from Chicago and Western Roads were in attendance:

Chicago, St. Paul & Fond du lac; Geo. S. Dunlap, Superintendent; E. De Witt Robinson, General Ticket Agent.

Milwaukee & Mississippi—Wm. Jervis, Superintendent; A. B. Ellicott, General Agent; Samuel R. Platt, General Ticket Agent.

Chicago, Burlington & Quincy—C. W. Hammond, Superintendent.

Galena and Chicago Union—P. A. Hall, Superintendent.

Illinois Central—Robert Forsyth, General Freight Agent.

Michigan Southern and Northern Indiana—John B. Jervis, President; Hiram Sibley, John C. Wright, Directors; Chas. Minot, General manager; Samuel L. Brown, Superintendent; J. F. Porter, General Agent; D. P. Phelps, General Ticket Agent.

New Albany and Salem—John B. Anderson, Superintendent.

St. Louis, Alton and Chicago—A. H. Moore, General Superintendent; V. Hickox General Agent.

Michigan Central—R. N. Rice, General Superintendent; Thos. Frazier, General Ticket Agent; General Williams, General Freight Agent; H. J. Spaulding Western Passenger Agent; Chas. C. Noble, Eastern Passenger Agent.

Chicago and Rock Island—John F. Tracy, Superintendent; W. S. St. John, General Ticket Agent.

Row amongst the Salt Dealers at Syracuse.

We learn from the Syracuse papers that the difficulties which have been brewing among the salt dealers of the First Ward, reached its climax, and resulted in a serious riot and considerable destruction of property:

Several manufacturers have been selling and shipping salt in defiance of the regulations of the Salt Dealers' Association, and on Saturday last a boat load was being shipped by Messrs. Flack and McChesney to the order of a business firm in Rochester. The matter was brought to the attention of the dealers of the ward, and a large and excited crowd assembled who proceeded, under the leadership of several prominent citizens of the ward, to the salt block where the boat was lying, and threw the salt into the canal. A quantity of salt in barrels was also thrown into the canal from the dock—making in the whole 310 barrels destroyed. The crowd also proceeded to demolish the salt blocks of James Spencer and John Dolphin, who had rendered themselves obnoxious to the company, and salt blocks owned by Milton Spencer, at Green Point, were also considerably injured by the excited crowd. The blocks were not entirely destroyed, but unfit for use.

Two canal boats bound for Oswego were attacked by some Salt Pointers at "Six Mile Grocery," on Friday, and scuttled. The two cargoes belonged to merchants who have refused to come into the Association, and who ship salt to Oswego, selling it at lower rates than the Salt Dealer's Co., which seeks to monopolize the business. A fight took place in which the boatmen won.

The Crisis Over.

[From the N. Y. Tribune, Oct. 16th.]

The crisis is over. We are entering upon a period of dullness. The panic has subsided, and there are no exciting incidents in the history of yesterday to chronicle. Business moves on sluggishly. But few failures are announced, though there are many renewals of notes upon extended time. Money is still difficult to obtain at the highest rates of interest. Stocks are advancing, and more business in them is done. Specie commands but from ½ to 1 per cent premium. Trade in dry goods is prostrated; the wholesale dealers are selling at retail, and the retailers find few customers. The little that is doing in any branch of business is for cash. The banks are perfecting the details of the new arrangements at the Clearing House, which will soon be made, it is believed, are satisfactory to all parties.

Accounts from abroad are, for the most part, not cheering. A deeper gloom seems to have come upon Philadelphia and Baltimore, and other cities seem to be whistling to keep their courage up. More bank suspensions are reported. In New Orleans great excitement prevailed yesterday and the day before, and there was a run upon all the banks. Many of them bent to the storm and closed their doors. In St. Louis there was also a serious run yesterday.

How to Preserve Beauty.—Nothing is more becoming to a man or woman than a beautiful luxuriant head of hair, and a woman's beauty is certainly incomplete without a fair complexion, and he or she who neglects these great and important adornments of nature must expect to suffer the mortification of premature baldness, and a wrinkled face and a sallow skin. Nothing is necessary to preserve these essential attractions but the use of Prof. Wood's Restorative.—(Louisville Times.

Prof. Wood's Hair Restorative.—We have had occasion to use this preparation of Prof. Wood's, and after thoroughly testing its qualities, we find that where the hair is thin it will thicken it, if gray it will restore it to its original color; likewise, it gives it a glossy appearance, as well as keeps the hair from falling off. Cholera being the disease above all others most dreaded, it will be well for all to bear in mind that, as a preventive, Dr. J. Hostetter's celebrated Stomach Bitters stand at the head, and therefore all should keep a supply at hand during this warm weather. Its effect upon the stomach when disorganized by bile, and its vivifying influence upon the system, is truly astonishing, and cannot be described, but felt when used as per direction on the bottle. Further comment upon them would be superfluous, as they are known far and wide, and for sale by dealers generally all over the United States. oc15-d2w

CHAIN PUMP TUBING,
Made of Solid Timber.

TEMPLE & WRIGHT, AT THEIR PLANING MILL, corner of Polk and Canal streets, West Division, manufacture a superior article of CHAIN PUMP TUBING, by using "Wyman's Patent Boring Machine." The tube through which the chain runs is bored through solid timber, [illegible]

Wherever this article has become known, the old style of Tubing made of two halves has been discarded. [illegible] and sell it at 25 per cent. cheaper than any other kind made.

Dealers supplied on liberal terms.

Orders left at our mill, or sent through the Post Office, will receive prompt attention.

TEMPLE & WRIGHT.

Shingles! Shingles! Shingles!

THE UNDERSIGNED HAVE LEASED OF Wm. Record his Patent Right and Machine to manufacture Shingles in this city, and are operating it now very successfully, producing a superior quality. Indeed, we [illegible] but repeat the opinions and expressions of many Builders, Architects and Dealers, when we say, "They are the very best Shingles made."

This, in connection with the other fact, viz: that we can and do make from thirty to forty per cent. more Shingles out of the same quantity of Bolts, enables us to compete successfully with any other "Shingles" in market.

Please leave your orders at our Mill, on the corner of Polk and Canal sts., West Division.

THE MERCHANTS' GRAIN FORWARDING ASSOCIATION.—Chicago, Sept. 30th, 1857.—We, the undersigned merchants of Chicago, in view of the pressure in the money market, which has a direct tendency to check the forwarding of grain—thereby hindering the collection of debts around the country [illegible] on the following course, which we trust our country merchants will appreciate and act upon with promptness and dispatch. [illegible] days. It will not be possible to forward grain after that time to the seaboard, hence the necessity of immediate action in the premises. We propose that our customers buy wheat of the farmers at the current price, less the freight, and forward to us, ("The Merchants' Grain Forwarding Association,") either on joint account or as their agents in forwarding and selling. Or if the farmer wishes to make us his agents through you on the same terms, allow him to do so. It will be necessary, however, that the association be apprised of the manner in which each shipment is designed to be accounted for on receipt of the shipping bills. This association propose to raise the necessary funds to pay all charges here and elsewhere until the grain is sold, for which they will charge no commission, and when sold under our account to the shippers, crediting them the amount of their liabilities to the members of the association, and hold the balance of the funds subject to order.—The farmer can see that this is not done for speculation, and that he is sure of getting value received for his grain, and of paying his liabilities without sending a dollar in money.

After navigation closes grain will be down much lower than it now is, which should be another inducement for immediate shipment by the farmers.

MANY kinds of Tonic are advertised that we are assured will strengthen the hair and prevent its falling out, but none that we have seen used does all that it promises, save that of Professor O. J. Wood's. This we know is good from having tried it, and witnessed in several cases its truly beneficial effects. Dr. Wood was kind enough to send us a couple of bottles, and after finding that it prevented our hair from falling out, we presented a bottle to a friend who had been bald for at least thirty years; it has restored his hair entirely, and it is now as thick and glossy as when he was twenty-five. This we say in all sincerity, and we shall be glad to have our friends try it for themselves, as we believe it is just what it professes to be. For real worth, Wood's Hair Restorative is undoubtedly the best preparation now in use for restoring hair on bald heads, changing gray hairs to their original color, and for a cosmetic or cure for pimples, it is fast taking the place of other preparations. No toilet now-a-days is complete without it.

If any one should ask us what in our opinion, arrived at by an impartial test, was the best and most honest compound remedy for preserving and beautifying the hair and restoring gray hairs to its original color, and the locks to the baldheaded, we should without hesitation say Prof. O. J. Wood's Hair Restorative. See advertisement in another column.—[Louisville Journal.

Sold by all Druggists.

WE wish to say to every person who reads this, that there is an article known as DR. SANFORD'S INVIGORATOR, OR LIVER REMEDY, which can be relied on as certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia, and numerous other complaints described in another column; besides which, it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system, caused by the improper action of the liver, reduces the power of the lungs to resist or throw off diseases caused by cold and irritation, [illegible] to prevent consumption, cure the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy, or a cure for debilitated system, than DR. SANFORD'S INVIGORATOR, for it has been fully tried in a large and extended practice, till its results are fully known, and now it is offered as a tried remedy, and one that can be relied on. (See advertisement.)

MONDAY MORNING........OCTOBER 19.

A Blindfold Game of Chess.

WONDERFUL EXHIBITION OF INTELLECTUAL CAPACITY.

Probably one of the most astonishing exhibitions of intellectual power ever given, so far as games are concerned, was afforded at the National Chess Congress on Saturday evening. Mr. Louis Paulsen, of Dubuque, Iowa, undertook to play four games of chess simultaneously, against four strong players without seeing either of the boards. The magnitude of this undertaking may be faintly comprehended when it is known that on each board there are sixty four squares, making one hundred and twenty eight squares; each of these squares, according to the present defective system of chess notation, has two names—one for each color of piece on its line at the commencement. Each board has thirty two pieces, comprising six different capacities for moving. The king moves and takes one square at a time in any direction. The queen moves and takes any number of squares in any direction, when nothing intervenes. The rook moves and takes any number of squares at right angles, when nothing intervenes. The knight moves and takes on the second square, on a different color. The bishop moves and takes diagonally any number of squares, when nothing intervenes. The pawns move at first two squares, if the player desires, and afterward one, forward, but never backward, but it takes diagonally. There are also a number of complicated rules of the game which require extraordinary skill to play one game, even when looking at the board. But to play at once four games, without seeing the board, against strong players, not only without becoming confused, or losing pieces, but also making wonderful moves, and skilfully checkmating in one instance, is a feat of intellectual power which undoubtedly has rarely before been equalled. The great Phillidor played three games at a time, but never essayed four. The only man now living who at all approach the present feat, is the celebrated Harwitz; but he only plays three games at once, and then if his opponents are strong players exact odds.

In the commencement of the last century, at Turin, there was a General named Saccheri, who played four games at once blindfolded, generally winning, and as stated by Gerchi, a writer on chess, committed not even trivial errors. In 1851 Kieseritzky, a celebrated player in Paris four games at once, of which he won three and lost one. Mr. Paulsen is usually quiet and slow in making his moves when looking at the board, but when blindfolded he plays quite as fast, and often faster, while his style of play is not weaker.

The games Saturday night were played against Mr. Paulsen, by Paul Morphy, of New Orleans, Mr. J. A. Fuller, of New York, De Julien of New York, and Mr. Shultz of New York, and were numbered respectively one, two, three and four. The tables were ranged across the room, and were surrounded throughout the evening by an interested crowd of spectators. Mr. Morphy of New Orleans also played his game without seeing the board, the pieces being matched and the move announced by secretaries. The other players announced their moves as they were made, commencing with board No. 1, and following in rotation.—Mr. Paulsen and Mr. Morphy were seated back to back at the upper end of the room, on a platform, and were objects of much interest to the visitors, among whom, by the way, were a number of ladies. The playing was commenced at half past four in the afternoon, and lasted until twelve o'clock, yet Mr. Paulsen did not make a single mis-move, or become confused in any of the games.

The first game was won by Mr. Morphy after six hours hard work, when he announced checkmate in five moves, amid enthusiastic applause. Mr. Paulsen was perfectly aware of the position at the time, but saw too late his mistake in taking an unprotected pawn. Mr. Morphy's checkmate was beautifully ingenious, and accomplished by sacrificing a rook. The play of both gentlemen, without seeing the board, up to the time of Mr. Paulsen's fatal error, was quite as good as if they had seen the board. Mr. Morphy announced the checkmate on the twenty-third move. His style of play was less brilliant than usual, but he carelessly lolled in his chair as if he was not performing an astonishing feat. It is a remarkable fact, however, that he could have checkmated Mr. Paulsen much more beautifully in four moves.

The second game won was number four, by Mr. Paulsen against Mr. Schultz, who resigned on the twenty-sixth move, in view of the invincible attack of Mr. Paulsen. A few moves before Mr. Schultz resigned, Mr. Paulsen captured a knight, exposing his men to capture by a rook. His opponent, however, dared not take the proffered piece, as, had he done so, he would have been check mated on the next move. The rook, being unsupported, was captured by Mr. Paulsen's queen on the next move, eliciting much applause. Mr. Schultz shortly after resigned.

The play on the other two games continued uninterrupted until 12 1-4 o'clock, when, at the request of the committee and the consent of the players, they were discontinued, to be resumed on Monday. At the request of the committee, Mr. Paulsen then, without yet seeing the pieces, announced correctly the position of every piece and pawn on the two boards, involving the bearing of from thirty to forty pieces in two complicated games. This crowning wonder of the evening elicited a spontaneous cheer from the spectators, and on leaving his seat Mr. Paulsen was heartily greeted by his many friends on the success of his undertaking. He looked but slightly wearied after his eight hours severe mental labor, and remarked that he thought he could play five games at one time with equal success. The interest of the spectators was intense, and the impressive scene will never be forgotten in the annals of chess.—*N. Y. Herald*, 12th.

THE SYSTEM OF LETTER DELIVERY IN CITIES.—The Washington correspondent of the New York *Herald* says:

"It was the intention of Postmaster-General Brown to establish in New York and several of the other large cities the London system of letter delivery, but after a careful examination, he ascertained to his satisfaction that it could not be done under existing laws. In London, all 'mail' letters are delivered free of expense, while 'drop' letters pay one cent. The expense of this delivery of mail letters is a tax upon the general fund; but under our post office law, such an appropriation of the funds could not be made. The city of New York is now divided into six districts, with some six hundred boxes scattered at different points for the collection of letters. These letters have therefore been taken from the boxes, carried to the city post office, and thence distributed to the several district stations where they were delivered to the carriers. The city postmaster is now authorized to provide for the transportation of these letters directly from the boxes where they may be dropped to the station for which they are intended, without their having to pass through the city office. These deliveries are to be four times a day, and thus a person on the western side of the city writing to a friend on the eastern or northern portion, would have his letter conveyed direct, and without any delay or hindrance in the city post office.

In order to meet the expense of this improvement, the tax of two cents on mail letters and one cent on drop letters is imposed. The fund thus raised is divided among all the carriers in the city in such a manner as to equalize their pay. While the amount collected down town would more than meet the expenditure, the revenue up town falls short of it. By the plan adopted, the excess in the one is made to meet the deficiency in the other. The Postmaster-General says that if the box system at the city office was abolished and the whole correspondence given to these carriers, it could be done for one cent a letter, as is now the case in Boston—the only city in the Union where the delivery is only one cent.

As regards the delivery of drop letters, this part of the work is done as cheaply as in London or Paris; and it was on this point the citizens of New York more particularly demanded improvement.

The Postmaster of Philadelphia has been instructed to make selection of points for locating boxes, and to report the same to the Department, with a view to a speedy introduction of the improvements into the Quaker City. The Postmaster at Boston will receive similar instructions in a few days."

PENNSYLVANIA LEGISLATURE.—The Legislature of Pennsylvania adjourned Tuesday, after agreeing on a bill which relieves the Banks from the penalties invoked by Suspension, provided they resume on or before the second Monday in April next. Such is the gist of the measure.

If we are to have another era of legalized Suspension, we are content that it shall be inaugurated by the Democratic Legislature of the President's own State, whose October vote secured his election.

"LITTLE GERRITY" ONCE MORE AMONG US.—That thriving record of the criminalities, and striking passing events of the day, the *Police Gazette*, has just passed into new hands. Mr. George W. Matsell, the well known ex-Chief of Police, and Mr. McKellar, his chief aid in the times of the Municipal Police, have become its proprietors and editors. Mr. Matsell returns to the city from a farming experiment which he has made in Iowa, and which he does not find equal to his expectations. [illegible] —*N. Y. Post*, 12th.

It is said the Harpers only wanted [illegible] to carry them through, and that a Bank which had promised [illegible] the very hour the amount was to have been loaned.

Female Physician and Midwife. MRS. THOMPSON, HAVING PRACTICED successfully for a number of years in the East, now offers her professional services to the ladies in this city, and will attend day and night. Residence 139 Madison street.

The Greatest Medical Discovery of the Age, is Ayer's Cathartic Pills.

THEY DON'T "HELP" COMPLAINTS, but they cure them.

One box has cured Dyspepsia.

Three boxes have cured the worst cases of Scrofula.

Two boxes have cured Erysipelas.

One box always cures the Jaundice.

Three boxes are sure to cleanse the system from boils—often less than one does it.

Two boxes have completely cured the worst of ulcers on the legs.

Small doses seldom fail to cure the Piles.

One dose cures the head-ache arising from a foul stomach.

Strong doses often repeated expel every worm from the body.

They should be given to children, who are always more or less afflicted with this scourge.

As a gentle Physic they have no equal.

One box cures derangement of the Liver.

Half a box cures a Cold.

They purify the blood, and thus strike at the foundation of every disease.

As a Dinner Pill there is not their equal in the world.

They are purely vegetable and can do no harm, but do accomplish an unaccountable amount of good.

Prepared by Dr. J. C. AYER, Practical Chemist, Lowell, Mass., and sold by all Druggists and Dealers in Medicine throughout this section.

J. H. REED & CO., 144 & 146 Lake street.
